1. Introduction

This document sets out the audit and inspection programme of DG Health and Consumers for 2009 with a detailed inspection programme for January to December.

There is always a degree of uncertainty attached to any SANCO inspection plan. Of necessity, it must remain flexible to enable it to respond to emergencies, other urgent issues and unforeseen circumstances. As in previous years, adjustments to the plan will be required as the year progresses. Inspections in response to emergencies can only be made by cancelling or postponing planned missions. Also, the carrying out of certain inspections will depend on the timely availability of resources.

An update of the programme will therefore, as usual, be presented in June 2009.

The programme is also published at the DG Health and Consumers website:

http://www.ec.europa.eu/food/fvo/inspectprog/index_en.htm

2. Number and distribution of audits and inspections

As shown in table 1, a total of 255 audits and inspections are planned for the 2009 programme. This figure includes the specific audits which supplement the general audits planned in 9 Member States in 2009 (see Chapter [3. Audits and inspections in Member States](#)).

As usual, audits and inspections in the food safety area make up the main part of the programme (68%). However, in line with the "farm to fork" approach, a large number of food safety inspections naturally also cover animal health and welfare elements. 12 and 5% of inspections, respectively, will specifically focus on controls in the animal health and welfare areas, and 7% of inspections are targeted at phytosanitary controls. General reviews - inspections to develop and/or update country profiles and to review overall progress on follow-up to FVO report recommendations - make up a further 8% of the planned audits and inspections.

Table 1: Breakdown of audits and inspections 2009 by main areas:

AREA	No. of audits and inspections	%
Food safety	174	68
Animal health	30	12
Animal welfare	14	5
Plant health	17	7
General review	20	8
Total	255	100

Table 2 provides an overview on the geographical breakdown of audits and inspections in 2009. 56% of the audits and inspections will take place in the European Union. In EFTA countries, 4 inspections are planned, while 4% of inspections will take place in candidate countries, and 38% in other third countries. Taking into account that one sixth of the audits and inspections in the EU deal with Member States' import control systems, overall, controls with respect to third countries' export of feed, food, plants and animals amount to more than 50% of the programme.

Table 2: Geographical breakdown of audits and inspections:

COUNTRY	No. of audits and inspections	%
EU-27	142	56
EFTA countries	4	2
Candidate countries	11	4
Other third countries	98	38
Total	255	100

3. Audits and inspections in Member States

As outlined above, the FVO will carry out nine general audits in the framework of the Official Feed and Food Controls Regulation¹ in 2009, namely in Belgium, Cyprus, Finland, Greece, Latvia, Lithuania, Portugal, Slovenia and the United Kingdom.

Following a pilot phase in 2007 and 6 general audits in 2008, 2009 will be the second year of the introduction of a 3-year audit cycle to all Member States. Following the integrative approach introduced by the Regulation, the main purpose of the general audits, in accordance with Article 45, is to verify that, overall, official controls take place in Member States in accordance with the multi-annual national control plans referred to in Article 41 of the Regulation and in compliance with Community law.

The general audits will be supplemented by specific audits across all main control systems; the list for each of the 9 Member States is determined by combining the regular prioritisation process with a desk analysis of the multi-annual national control plans and additional information such as Member States' own audit reports.

In the remaining 18 Member States, inspections will mainly focus on follow-up to issues identified in previous audits and inspections, and to prepare for the audits in 2010.

Table 3 gives an overview on all inspections and specific audits planned in Member States:

¹ Regulation (EC) No. 882/2004 on official controls performed to ensure the verification of compliance with feed and food law, animal health and animal welfare rules.

Table 3: Audits and inspections 2009 in Member States

(Some of the subjects below are combined into one mission, as shown in [Annex 1](#) which lists all specific audits and inspections categorised by Member State in alphabetical order.)

AREA/SECTOR		COUNTRY/REGION
Control system for animal health	Eradication programmes and contingency plans	Bulgaria, Cyprus, Finland, Latvia, Lithuania, Romania, Slovenia
	Bovine semen/embryos	Belgium
	Tuberculosis and/or Brucellosis eradication control programmes	Cyprus, Italy, Portugal
	Intra-community trade in live equidae	Romania, Spain
	Foot-and-mouth disease labs	Germany, France, Netherlands, United Kingdom
Control system for food of animal origin	Traceability of fresh bovine meat and bovine products	Belgium, Lithuania
	Babyfood	Belgium, Italy, Netherlands
	Meat/milk hygiene package	Bulgaria, Finland, France, Greece, Latvia, Malta, Portugal, Romania, Slovenia, United Kingdom
	Poultry meat/poultry meat products	Cyprus, Finland, Latvia
	Poultry meat/poultry meat products/Salmonella control programmes (broilers)	Belgium, Portugal, United Kingdom
	Salmonella control programmes/table eggs	Germany, Greece, Lithuania, Slovenia
Control system for import of animals and food of animal origin	Import / transit controls / Border Inspection Posts (BIPs)	Austria, Belgium, Cyprus, Denmark, Finland, Greece, Latvia, Lithuania, Netherlands, Portugal, Slovenia, Sweden, United Kingdom
Control system for feeding stuffs and animal nutrition	Feed safety	Cyprus, Czech Republic, Finland, France, Germany, Italy, Ireland, Lithuania, Netherlands, Spain, Sweden, United Kingdom
Control system for Transmissible Spongiform Encephalopathies /animal by-products	Bovine Spongiform Encephalopathy (BSE)	Bulgaria, Portugal, Romania, Slovenia, United Kingdom
	Animal By-Products (ABPs)	Belgium, Latvia
	Organic fertilisers and the total feed ban	Germany, Italy
Control system for veterinary medicines and residues	Residues	Belgium, Cyprus, Finland, Latvia, Lithuania, Slovenia, United Kingdom
Control system for foodstuffs	Genetically modified feed and food	Portugal, Romania
	Food contact materials and use of food additives	Greece, Finland, Latvia, Lithuania, Portugal, Slovenia, United Kingdom

AREA/SECTOR		COUNTRY/REGION	
and food hygiene	Food hygiene/HACCP	Belgium, Cyprus, Greece, Latvia, Lithuania, Portugal, Slovenia	
Control system for imports of food of plant origin	Import controls (food and feed)	Belgium, Greece, Finland	
Control system for plant protection products	Pesticides	Belgium, Cyprus, Germany (Community Reference Laboratory), Greece, Portugal, United Kingdom	
Control system for animal welfare	Farms, transport, slaughter	Belgium, Cyprus, Finland, Greece, Latvia, Lithuania, Portugal, Slovenia, United Kingdom	
	Farms and slaughter	Bulgaria, Malta, Romania	
	Slaughter	Spain	
	Transport	France, Romania, Spain	
Control system for plant health	Import controls	Finland, Greece, Lithuania, Latvia, Portugal, Slovenia	
	Plant passports	Lithuania	
	Potatoes	Greece	
	Protected zones (Erwinia amylovora)	Greece, Italy, Latvia, Lithuania, Slovakia, Slovenia	
	General follow-up	United Kingdom	
	Outbreaks	Rynchophorus ferrugineus	Greece
		Anoplophora glabripennis	Austria
		Anoplophora chinensis	Netherlands
		Bursaphelenchus xylophilus, Gibberella circinata, Toxoptera citricida	Portugal

GENERAL REVIEWS		
General review missions	Pre general audit preparation	Bulgaria, Czech Republic, Denmark, France, Italy, Luxembourg, Malta, Poland, Romania, Sweden
	Post general audit review	Austria, Estonia, Germany, Hungary, Ireland, Netherlands, Slovakia, Spain

4. Inspections in EFTA Countries

Inspections in EFTA countries will be done in the framework of the agreement on the European Economic Area (EEA agreement) and agreements between the European Union and Switzerland. The inspection to Iceland will be a joint mission between the EFTA Surveillance Authority (ESA) and the FVO.

Table 4: Inspections 2009 in EFTA Countries

AREA/SECTOR		COUNTRY /REGION
Control system for import of animals and food of animal origin	Import/transit controls on products of animal origin and live animals	Iceland
Food of animal origin	Meat/milk	Switzerland
	Babyfood	Switzerland
Feeding stuffs and animal nutrition	Feed additives and premixtures	Switzerland

5. Inspections in Candidate Countries and Western Balkans

The Food and Veterinary Office continues to evaluate the progress candidate countries are making in their preparations for accession. 2009 will see inspections to Croatia, Turkey and the former Yugoslav Republic of Macedonia on a wide scale of food safety and animal health issues. The FVO will also carry out general reviews to prepare country profiles for Turkey as well as for Albania, a Western Balkan country, and thus, potential candidate.

Table 5: SANCO Inspection Programme 2009 in Candidate Countries

AREA/SECTOR		COUNTRY/REGION
Control system for animal health	Poultry animal health	Turkey
Control system for food of animal origin	Upgrading of food processing establishments (meat, milk)	Croatia, the former Yugoslav Republic of Macedonia
	Milk export sector	Croatia, the former Yugoslav Republic of Macedonia
Control system for import of animals and food of animal origin	Import/transit controls/Border Inspection Posts (BIPs)	Croatia (<i>subject to construction</i>)
Control system for veterinary medicines and residues	Residues and contaminants	Croatia
Control system for feeding stuffs and animal nutrition	Feed hygiene	Croatia

AREA/SECTOR		COUNTRY/REGION
Control system for TSEs/ABPs	Animal by-products	Croatia
Control system for plant protection products	Pesticides (export related inspection)	Turkey

GENERAL REVIEW MISSIONS "ENLARGEMENT" (Candidate countries and/or Western Balkan countries)		
General review missions		Albania, Turkey

A list of audits and inspections, categorised by country in alphabetical order, is shown in [Annex 3](#).

6. Inspections in Third Countries

In third countries, the FVO needs to ensure that competent authorities correctly apply relevant EU standards or their equivalent with respect to animals, plants and products intended for export to the European Union.

While the main part of these inspections is targeted at a review of existing approvals of major trade partners and follow-up to previous missions, there are also a number of new requests for approval which will need to be evaluated. The readiness of application files (such as, for example, timely replies by competent authorities to pre-mission questionnaires), but also certain specific regional circumstances (e.g. security considerations), are major conditions for the completion of the inspection programme. Therefore, a number of third country inspections can only be programmed provisionally at this stage.

Table 6: SANCO Inspection Programme 2009 in Third Countries

AREA/SECTOR			COUNTRY/REGION
Animal health	Foot-and-mouth disease controls		Argentina, Brazil, Paraguay
	Live equidae		Belarus, Libya, Mauritius
	Aquaculture		Canada, Morocco, Singapore, Thailand
	Poultry		Canada, China, Thailand
Food of animal origin	Pre-listing evaluation	Milk/milk-based products	Belarus, Serbia, Ukraine
		Red meat/red meat products	Montenegro, Morocco, Ukraine
		Ossein	Indonesia
	Poultry meat		Argentina

AREA/SECTOR		COUNTRY/REGION
	Poultry meat products	China, Thailand
	Casings	Brazil, China, Pakistan
	Milk/milk-based products	Canada, Israel, Netherlands Antilles, United States
	Red meat/meat products	Argentina, Botswana, Brazil, Chile, China, Hong Kong, Namibia, Paraguay, Uruguay
	Fishery products	Algeria, Benin, Cape Verde, China, Dominican Republic, Egypt, El Salvador, Gabon, Guinea, Indonesia, Kazakhstan, Libya, Mauritius, Myanmar, Nicaragua, Nigeria, Sri Lanka
	Live bivalve molluscs	Canada, Greenland, United States
	Fishery products and live bivalve molluscs	Albania, Japan, Morocco, Peru, Uruguay, Vietnam
TSEs/ABPs	Pet food	China
Veterinary medicines and residues	Residues	Australia, China, Guatemala, India, Indonesia, Russia, Serbia, United States, Venezuela, Vietnam
Food of plant origin/foods tuffs and food hygiene	Contaminants	Australia, Azerbaijan, Brazil, India, Peru, United States, Uzbekistan
	Food contact materials	China, Hong Kong
	Irradiation	China
	Genetically modified feed and food	Brazil, China, United States
Plant protection products	Pesticides	Brazil, Chile, Morocco
Plant health	Export controls	China, Kenya, South-Africa, Zimbabwe
	<i>Bemisia</i> control equivalency	United States

A list of inspections, categorised by country in alphabetical order, is shown in [Annex 4](#).

Annex 1: Inspections in Member States, by Country in alphabetical order

<u>MEMBER STATE</u>	<u>SHORT TITLE</u>	<u>REFERENCE NUMBER</u>
<u>Belgique/België</u> <u>(Belgium)</u>	Poultry meat and poultry meat products, salmonella control in broilers	2009-8063
	Import/transit controls/border inspection posts (animals and food of animal origin)	2009-8075
	Animal by-products (ABP)	2009-8093
	Residues and contaminants (live animals and animal products)	2009-8121
	Pesticides	2009-8147
