Why **emotions**?

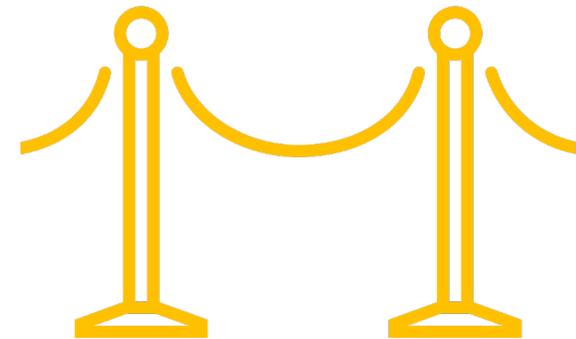

Emotions are
motivational drivers

Why Museums?

“

A museum is a not-for-profit, permanent institution in the service of society that researches, **collects**, conserves, **interprets**, and exhibits tangible and intangible heritage. Open to the public, **accessible** and **inclusive**, museums foster **diversity** and **sustainability**. They operate and communicate ethically, professionally and with the **participation** of **communities**, offering **varied experiences** for **education**, **enjoyment**, reflection and knowledge **sharing**.

Why Learning in Museums?

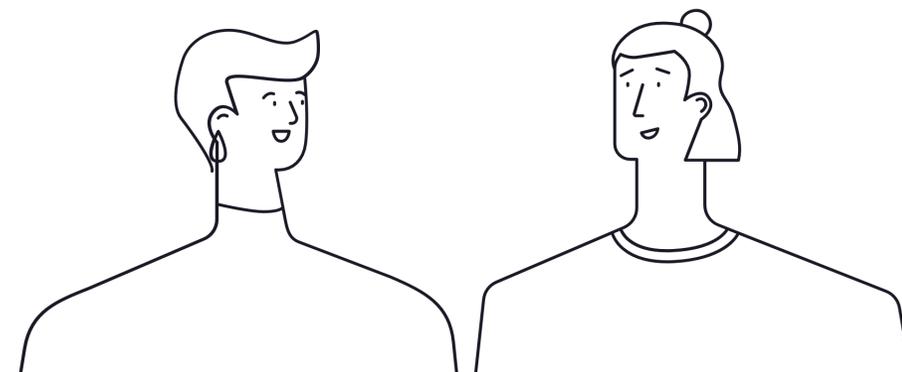

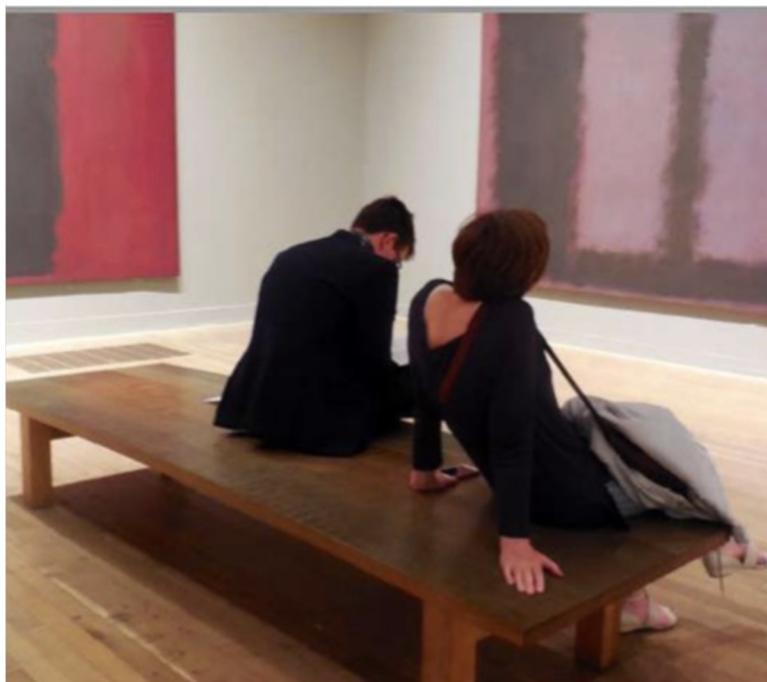

Emotional involvement of visitors is a precondition for effective and authentic learning» (M. Sani)

Learning is a process of **active engagement with experience**. It is what we do when we want **to make sense of the world**. It may involve the development or deepening of skills, knowledge, understanding, awareness, values, ideas and feelings, or an increase in the capacity to reflect.

Effective learning leads to change, development and the **desire to learn more**.

Why MuseiEmotivi?

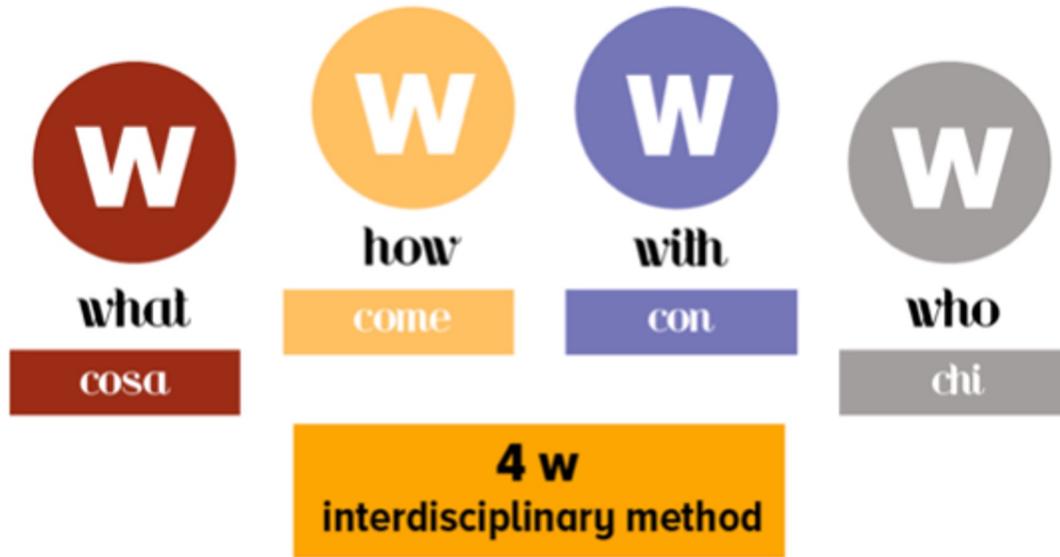

Emotions are a **new trend** for 21st century museums.

Museums are becoming **user-centered** and **dynamic** spaces for **multiform** experiences, where new media are used to **engage** different audiences that explore and enjoy collections in **creative, emotional** and customized ways.

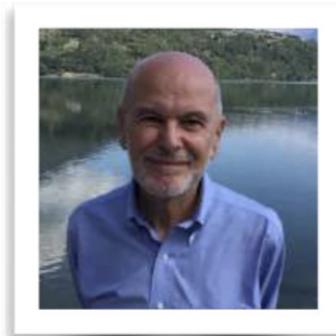

“MuseiEmotivi” is a three day interactive workshop which looks at museums as **multisensory** and **immersive** spaces where the **wow effect** is not superfluous, but is a **key factor that motivates** access to content and increases the learning process.

Why **interdisciplinarity**?

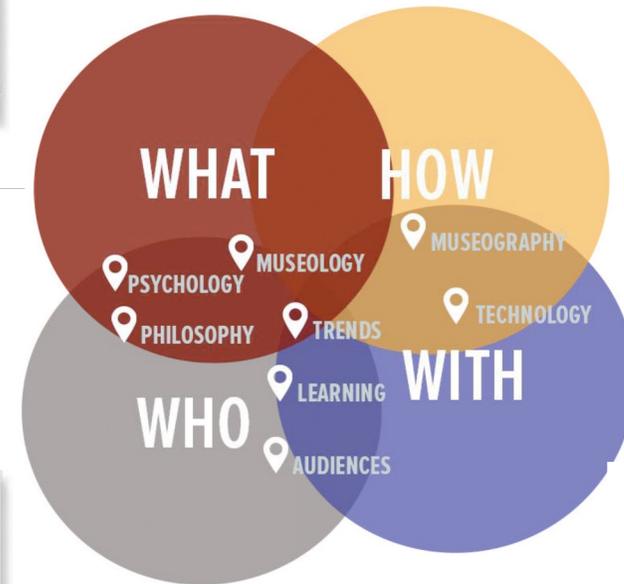

What is the role of **emotions** in designing 21st century **museums**?
